Portfolio: yashgargcv.lovable.app

PROFESSIONAL SUMMARY

Aspiring AI Product Manager with formal training in Product Management and Applied Artificial Intelligence. Experienced in product discovery, PRD creation, roadmap planning, and AI-assisted product development. Strong understanding of Generative AI workflows including prompt engineering, AI-powered automation, and AI-driven product ideation. Adept at translating ambiguous ideas into structured product solutions aligned with business goals, user needs, and technical feasibility. Known for strategic thinking, fast decision-making, and collaborative execution developed through competitive esports environments.

CORE PRODUCT MANAGEMENT SKILLS

Product Discovery

Product Requirement Documents (PRD)

User Research & Interviews

User Stories & Acceptance Criteria

Roadmap Planning & MVP Strategy

Product Strategy & Feature Prioritization

Agile / Scrum Methodology

Stakeholder Communication

Product Metrics & KPI Tracking

Data-Driven Decision Making

Problem Framing & Hypothesis Testing

AI & TECHNICAL SKILLS

Generative AI Product Concepts
Prompt Engineering
AI-assisted Product Development
AI Workflow Automation
API Fundamentals
Data Analytics Basics
AI Productivity Tools

Understanding of:
LLM-based product workflows
AI-powered product ideation
AI documentation automation

PRODUCT PROJECT EXPERIENCE

AI-Assisted PRD & Product Roadmap Generator

Product Management Simulation Project

- Designed an AI-assisted system that converts raw product ideas into structured Product Requirement Documents including problem statements, user personas, feature definitions, and success metrics
 - Developed a product roadmap aligning short-term MVP development with long-term product vision
 - Applied prioritization frameworks such as **RICE** and **MoSCoW** to define feature sequencing
 - Conducted simulated user research and problem discovery to validate product hypotheses
 - Designed structured documentation templates improving PRD creation efficiency by **40%**
 - Demonstrated end-to-end product lifecycle ownership: **Discovery** → **Planning** → **Documentation** → **Roadmap**
-

PROFESSIONAL EXPERIENCE

Esports Athlete — PUBG: New State

S8UL Esports | Dec 2022 – Dec 2023

- Collaborated with a 4-member competitive team to analyze gameplay data and improve tournament performance
 - Used performance metrics and opponent analysis to refine strategies and optimize gameplay outcomes
 - Demonstrated rapid decision-making and strategic execution in high-pressure competitive environments
 - Improved team consistency by identifying performance gaps and optimizing practice workflows
 - Strengthened leadership, communication, and collaborative problem-solving skills
-

PRODUCT MANAGEMENT TRAINING

Product Management with Applied AI
Masai School (Affiliated with IIT Roorkee)
2025 – Present

- Hands-on training in product discovery, roadmap planning, PRD development, and feature prioritization
 - Built product case studies and simulations using AI-assisted ideation and documentation workflows
 - Applied product frameworks including RICE prioritization, user journey mapping, and success metrics
-

EDUCATION

Bachelor of Commerce (B.Com)
Delhi University – School of Open Learning
2022 – 2025

AI MASTERY & CERTIFICATIONS

AI Tools & ChatGPT Workshop — be10x

Issued: March 2026

Coding with AI: From Idea to Product in Minutes — MasaiVerse

Certificate ID: MASAIVERSE09012651

YUVA AI For All — India AI Mission

Hands-on AI tools training for real-world applications

Oracle Data Platform Fundamentals

Foundations of data platforms, data systems, and analytics concepts
