SUMMARY

Aspiring Associate Product Manager with formal training in Product Management with Applied AI and hands-on experience in PRD creation, product road mapping, and user centric problem solving. Strong background in competitive esports with proven skills in decision-making, cross functional collaboration, and execution under pressure. Actively seeking Associate product manager roles in non tech/tech-driven organizations.

SKILLS

Prototyping design

User Research

Decision Making

User interviews & User stories

Complex Problem Solver

Product thinking

PRD writing

roadmap planning

Problem framing & prioritization

TOOLS

FIGMA , MIX PANEL , MIRO , EXCEL/GOOGLE SHEETS , SURVEY MONKEY , JIRA

PROFESSIONAL EXPERIENCE

- Esports Athlete – PUBG: New State

S8UL Esports

I Dec 2022 – Dec 2023
- Collaborated with a 4-member competitive team to analyze gameplay data and improve tournament performance
 - Led strategy planning and iteration, adapting decisions based on opponent behavior and in-game metrics
 - Participated in offline LAN events, demonstrating strong decision-making under high-pressure environments
 - Improved team consistency by identifying skill gaps and optimizing practice workflows
- (Transferable PM skills: collaboration, rapid problem-solving, performance optimization, data-driven decisions)

EDUCATION

- Bachelor of Commerce (B.Com)

Delhi University – School of Open Learning | 2022 – 2025
- PRODUCT MANAGEMENT TRAINING

Product Management with Applied AI

Masai School (Affiliated with IIT Roorkee) | 2025 – Present
- Hands-on training in product discovery, PRD writing, feature scoping, and roadmap planning
 - Applied AI-assisted workflows to enhance product ideation and documentation
 - Worked on real-world product simulations involving user research, prioritization frameworks, and success metrics
 - Created structured PRDs aligned with business goals, user needs, and technical feasibility

PROJECTS

AI-Assisted PRD & Product based Roadmap Generator

Product Management Project

Designed a system to convert raw product ideas into structured PRDs, including problem statements, user personas, assumptions, and success metrics

Built product roadmaps aligned with short-term wins and long-term vision using prioritization frameworks (RICE / MoSCoW)

Streamlined PRD creation using reusable templates and AI-assisted inputs, significantly reducing documentation time

Demonstrated end-to-end PM ownership: problem framing → solution design → execution planning

CERTIFICATIONS

- Coding with AI: From Idea to Product in Minutes – MasaiVerse
Certificate ID: MASAIVERSE09012651
- YUVA AI FOR ALL – India AI Mission
Hands-on approach to AI for real-world applications
Certificate ID: 231713-29841836-32914
- Data Platform Fundamentals – Oracle
(Foundations of data systems & analytics concepts)

ADDITIONAL DETAILS

AI IN PRODUCT MANAGEMENT

- AI-assisted PRD drafting
- AI-supported roadmap planning
- Using AI for ideation, requirement refinement, and documentation efficiency

HOBBIES

- Watching Cricket
- Watching Esports
- playing Esports
